## ECO-FEE PRICING SCALE APPLICABLE AS OF 1 JANUARY 2016.

### REMINDER

The eco-fee is applicable to the sale at time of invoicing.  
This pricing scale for 2016 will apply to sales invoiced as of 1 January 2016.

In the specific case of orders placed prior to 01/01/2016 which are invoiced after 01/01/2016, the consumer must be informed, at time of order, of the change to the pricing scale, it being specified that all invoices issued after 01/01/2016 will use the new pricing scale.

For purchases by distributors from French manufacturers invoiced before 31/12/2015 according to the 2015 pricing scale and sold to the end consumer after 01/01/2016, the distributor will charge the new eco-fee to the end customer on the basis of the 2016 pricing scale.

### NEW FOR THE 2016 PRICING SCALE: ECO-MODULATION CRITERIA

Eco-modulation of the eco-fee pricing scale is an incentive for traders which seeks to promote eco-design taking account of the end-of-life of furnishing components.

The primary criteria selected by Éco-mobilier aim to promote recyclability and waste reduction at source, while taking care not to create risks of pollution transfer from one stage to another in the life cycle of furnishing components.

**Criterion 1:** Furnishing components composed of more than 95% solid wood (without related padding materials) and FSC or PEFC certified;

**Criterion 2:** Furnishing components composed of more than 95% metal (without related padding materials);

**Criterion 3:** Scalable furnishing components (products whose dimensions can be adapted to the size of the user as they grow; products whose main function can be changed).

This is applied by businesses on a voluntary basis.

Eco-modulation is a bonus on top of the amount of the eco-fee. Furnishing components which meet the above criteria will therefore apply the pricing scale with eco-modulation. You will be able to find the eco-modulated pricing scale amounts, as well as practical information providing useful explanations of the criteria and related evidence procedures, on the website [eco-mobilier.fr](http://eco-mobilier.fr) from June 2015.
